### Summary

---

A versatile web developer with 2+ years' experience designing, developing and managing complex websites and e-commerce sites.

Specializes in WordPress theme development & customization and responsive design.

### Web Development Experience

---

#### **Legibra, Lead UI/UX WordPress Developer** **Feb 2018 – present**

- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML5/CSS3 and JavaScript.
- Designed and developed the front-end interface for 20+ websites running under the WordPress platform.
- Working with the design team to come up with user friendly and modern designs.
- Developing and setting up web application dashboards (blade views) to be used with the Laravel framework
- Testing and verifying that the developed product is up to standard, mobile friendly and according to the mock up that the client had approved.
- Responding promptly and professionally to bug reports and application support issues
- Leading hackathons concerning the best UI/UX practices

#### **EACdirectory, Web Designer/Digital Marketer** **Sept 2017 – January**

- Website design for the company and clients using Wordpress CMS.
- Updating and maintenance of clients websites
- Cpanel administration (configuring incoming/outgoing mail, installation of SSL certificates for security, backing up of databases, allocation of subdomains to clients for website testing and presentation purposes)

- Management of social media accounts for the organization and the clients. Analyzing visitor statistics using Google Analytics and recording KPIs for making data-informed decisions to track bounce rates, session duration for website pages/content improvement. Designing graphics for marketing (posters, brochures, business cards) social media (advertisements, posts) and website graphics
- Providing technical support related to the office network (wireless, cable), laptop maintenance (OS, antivirus & software installation) and Outlook mail configuration for incoming and outgoing mail.

## **Skills**

---

- Web markup with HTML5, CSS (Bootstrap4 framework) JavaScript and jQuery.
- Extensive use of WordPress CMS (theme development and customization)
- Skills in MySQL database administration and knowledge of Structured Query Language (SQL)
- Mastery of responsive design using in-built Bootstrap4 classes supplemented with custom code to make webpages more mobile friendly.
- Knowledge of Php and its associated framework Laravel in building web applications.
- Knowledge of OOP patterns and MVC model.
- Excellent skills in using Github for project collaboration.
- Design skills with Adobe Illustrator, Adobe XD.
- Keen eye for color aesthetics, typography
- Excellent skills in search engine optimization and using Google Analytics and Search Console for
- Exemplary knowledge of Firefox Developer Tool to ease in the development process.

## **Web Portfolio**

---

Below are some of the websites I have developed from the ground up with WordPress CMS except for the second one.

- <https://zoujin-africa.com/>
- [https://www.safaricom.co.ke/annualreport\\_2019/](https://www.safaricom.co.ke/annualreport_2019/) (worked with Nobert Mburu of Aftersix Creatives)
- <http://mygrocery.co.ke>
- <https://www.amanacapital.co.ke/>
- <https://ktk.co.ke/>

- <https://giftedcommunitypwd.org/>
- <https://www.mamicha.com>
- <https://missingvoices.or.ke/>
- <https://nabocapital.com/>
- <http://www.aplusinteriors.design/>
